such as logo,text and contact information
in the white solid line safe viewable zone

ii. Placed images

Placed images should have a resolution of 150 pixels per inch at full size for best graphic printing quality. However, in case if you don't have best quality pictures,please make sure to keep your resolution at 100-120 pixels per inch at full size. Scan/Photoshop files should be saved in CMYK mode as TIF or format. When placing such files in Illustrator, DO NOT PARSE OR EMBED the file.

Text:
All text must be converted to outlines.

Color Matching:
Any critical colors must be called out as a Pantone Code.

iii. A correct file format

PDF is the best format to submit your artwork work.
However, we also accept theseflle formats, as below.

.AI	ILLUSTRATOR CS (and below)
.EPS	ILLUSTRATOR CS (and below)
.TIFF	PHOTOSHOP CS (and below)

iv. About Design Template

The design templates incorporate:

The live visual area of the graphic.
The area you will be able to see once the graphic is installed.
Please extend all images and/or background colors to the outside edge of the template.
Keep all important graphic elements (images, text, etc.) within the view able area.
After printing, the graphic will be trimmed.
Please allow space for trimming by not placing type or logos too close to the edge of the viewable area.
